

Product information:

The TR3xxx offers a range of line transformers with a power ranging from 30 Watt up to 480 Watt. There are different taps available for 50V, 70V and 100V lines and the low impedance side is selectable between 2 Ohm, 4 Ohm and 8 Ohm.

System specifications:

| | |
|------------------------|-------------|
| Program power handling | 480 W |
| Connectors | 20 cm cable |

Product Features:

| | | |
|--------------|-------------------------------|-------------------------------|
| Dimensions | 170 x 65 x 170 mm (W x H x D) | |
| Weight | 7.020 kg | |
| Construction | Copper | |
| Accessories | Included | Mounting bolt, nut and washer |
